General Information

Experienced software engineer with 2 years of proven expertise in building dynamic, user-friendly applications using React, Angular, and Spring frameworks. Skilled in creating responsive and well-designed front-end interfaces, developing robust back-end solutions, and integrating APIs for seamless user experiences. A team worker who has worked with multiple teams, eager to leverage my skills to contribute quality code in web development projects and solve challenges.

Work Experience

NIKI Digital Engineering

SOFTWARE ENGINEER *April 2023 - January 2025*

- Developed lightweight and responsive user interfaces with React and Angular, optimizing for performance and tailored to meet customer-specific requirements.
- Designed and implemented scalable backend architectures to support large-scale data flows, optimizing performance and ensuring system reliability.
- Made significant contributions to projects of the German automotive industry, improving costumer workflow efficiency.

INTERN *Summer 2022*

- Designed and developed an in house Python application to automate and streamline managerial tasks.
- Completed training in web technologies and frameworks, including Angular, Node.js and MongoDB.

Work Skills

- React, Angular
- Spring, Node.js
- MongoDB, PostgreSQL, Oracle, SQL, GraphQL
- Python, Java, Javascript/Typescript
- Hibernate, AG Grid, Playwright, Git

Education

University of Ioannina

BACHELOR IN MATHEMATICS

- Applied strong analytical and problem-solving skills honed through mathematical training with hands-on experience building user-focused web applications.
